

John Michael Lind

Roots, Folk-country
Singer/songwriter
jml@jmlmusic.com

Son of a hard-rock miner, raised on the prairies, JML has the heart of an artist and a collar of hard-working blue. Steeped in folk and roots music, with influences from Van Morrison to John Prine, JML writes songs that feel real, that connect with people on many levels. JML's debut CD **Out on the Land** is 6 finely crafted original songs about kids, farmers, heartbreak, longing, and snow. The *Georgia Straight* calls it a

"crisp-sounding EP... Lind's ticket to the next level of fame."

"Folk music is more than dusty, roadside recordings of long-gone greats: it's made by people here and now. It's played not just in parlors on traditional instruments, it's on the radio, in earbuds, it may be labelled this genre or that, but it's all folk music: music people make to feel better, to entertain and enlighten, to understand and explain our world and our place in it."
JML

"Out on the Land's title track... [is] a modern-day dust-bowl ballad about an old man living out his declining days on the prairie, and there's clearly something real to it." – Georgia Straight
