

"Up & comer John Michael Lind (JML) and his "Alt-Country, Played Well," a rare combination of kick-ass fun and soulful connection, brings you his versions of great songs by legends like Lightfoot, Dylan, Waits, Cash and more, true to the spirit of the originals and infused with JML soul.

In hundreds of live shows, over a decade of touring, JML drives his booming Tinker guitar like a locomotive, chugging up the hills and high-balling on the straights, while his voice wails like that lonesome whistle. You gotta check this guy out!"

JML's album "**Lightning Rod**" is slated for release April 2025.
